

Om Lahore

+91 - 9156802668 | omlahorey@gmail.com | <https://www.linkedin.com/in/om-lahorey/> | github.com/omlahore | omlahore.com

EDUCATION

Vishwakarma Institute of Information Technology

Bachelor of Technology in Computer Science (8.6 GPA)

Pune

Nov. 2022 – June 2026

EXPERIENCE

Web Developer

April 2024 – Present

Marketing Mojito

Remote

- Provisioned and managed Amazon S3-hosted static sites; configured DNS (A & CNAME) records, SSL/TLS certificates, and IAM policies end-to-end.
- Responded to production incidents—restored hacked/degraded sites, performed root-cause forensics, and delivered comprehensive postmortems.
- Implemented containerized CI/CD pipelines with GitHub Actions.
- Instrumented Prometheus & Grafana dashboards for system monitoring, including CPU, memory, and error-rate alerts.
- Engineered 20+ client websites utilizing JavaScript, React, and WordPress, ensuring responsive, high-performance designs.
- Customized WordPress themes and managed plugins, improving website functionality and user experience.
- Optimized client website performance, resulting in a 20% increase in load speed and engagement.
- Implemented SEO strategies across client sites, improving search engine rankings by 30%, driving an increase in organic traffic.

Web Development Member

Aug 2023 – Aug 2024

Microsoft Learn Students Association

- Collaborated on multiple web development projects, leveraging React.js and Node.js to build dynamic applications.
- Facilitated 3 coding workshops, increasing participation by 30+ students and improving coding skills in React.js and JavaScript.

PROJECTS

Mojito People (HRMS Platform) | React, Node.js, MongoDB, Role-Based Access Control

- Designed and built a complete HRMS application to manage employee attendance, leaves, and daily operational tasks.
- Implemented role-based access for HR, managers, and employees, covering approvals, task assignments, and attendance tracking.
- Developed modules for leave management, attendance records, task tracking, and employee dashboards in a single unified system.
- Focused on scalability and real-world HR workflows, positioning the platform as a complete internal people-operations solution.

Google Kubernetes History Inspector | , Kubernetes, Open Source

- Contributed to Googles KHI repository, made some minor changes to frontend.
- Collaborated on Github via Pull Request

Resumate | React, Node.js, MongoDB, Vercel

- Full-stack resume builder with React frontend and Node.js API enabling PDF export.

Omlahore.com 3D Three.js Project | Three.js, JavaScript, WebGL

- 3D interactive experience using Three.js and WebGL, optimized for performance.
- Deployed on custom domain: omlahore.com.
- Managed DNS and hosting and SSL certification along with adding correct CNAME and A records.

TweakCN (Open Source) | JavaScript, CSS

- Added dark mode with persisted preferences and improved accessibility.
- Collaborated via pull request on the live site.

README-GPT (Chrome Extension) | JavaScript, Groq API

- Browser extension that injects an “Explain this repo” button on GitHub, using Groq LLM for smart code analysis.

Mama’s Kitchen | React, Firebase, AWS IAM

- Built and deployed a React site on Firebase for a Dubai client with menu, contact forms, and galleries.
- Integrated Firebase IAM for fine-grained, role-based access control on the admin dashboard.
- Applied performance and SEO optimizations.

Landing Pages | WordPress, PHP, HTML/CSS, SEO

- Developed and maintained multiple WordPress sites for Ramee Group (rameehospitality.com, rameewellness.com, rameerealty.com, vedasoverseas.com, ramee.group).
- Customized themes/plugins; improved performance and SEO.

Raymond.in Website | Webflow, SEO

- Built a responsive landing page for Raymond Clothing (India) on Webflow with SEO and performance optimizations.

ACHIEVEMENTS

Earned 10+ certifications from Cisco, AWS, IBM, Google, Harvard, and CodeChef, including:

- Cisco: CCNA (Intro to Networks, Switching & Routing), Cybersecurity, Python Essentials 1 & 2
- IBM: DevOps and Software Engineering
- AWS: Cloud Essentials — Harvard: CS50P Python
- Google: Generative AI — CodeChef: Java Programming

Published technical blogs on Medium covering full-stack projects, Three.js, and web security.

Contributed to open-source with 100+ GitHub commits over the last year.

Maintained consistent weekly GitHub activity across public projects and deployments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C/C++, SQL (PostgreSQL), HTML5, CSS3, GoLang(basic)

Frameworks/Libraries: React, Angular, Vue.js, Node.js/Express, Flask, Django, FastAPI, Three.js, WordPress, Next.js, Material-UI, Redux, Firebase SDKs, Bootstrap

Databases: PostgreSQL, MongoDB, Firebase Firestore, Redis, Supabase

Tools/Platforms: Git, Docker, GitHub Actions, CI/CD, Kubernetes (basic), Firebase Hosting, AWS fundamentals, Linux

Other: RESTful APIs, GraphQL, WebGL, Responsive Web Design, SEO fundamentals, Data Structures & Algorithms, Testing (Jest, Mocha), Agile methodologies, JIRA
